

TEXAS A&M UNIVERSITY

Statistics

MS IN STATISTICAL DATA SCIENCE

WHY CHOOSE US?

We prepare students with a solid grounding in both the theoretical and practical aspects of statistics, data science, and quantitative research methods. Our programs offer a diverse selection of electives. A consulting course towards the end of the program conclusion not only enhances students' ethical awareness but also provides them with real-world exposure to tackle statistical challenges.

ONLINE VERSUS LOCAL

- ✓ Both programs provide the same comprehensive and rigorous training
- ✓ Online Program provides nonthesis degree and accepts applicants who reside in Americas—
<https://online.stat.tamu.edu/>
- ✓ Local program provides nonthesis and thesis degrees—
<https://stat.tamu.edu/ms-statistics/>
- ✓ Start your application at the Texas A&M GraduateCAS—
tx.ag/graduateCAS

THESIS

A suitable option for individuals who wish to maintain the possibility of engaging in research or advancing to a Ph.D. program.

NON THESIS

Ideal for individuals planning to directly enter the industry or advance as statisticians or pursue alternative career paths following graduation.

REQUIREMENTS

Calculus I and II, Knowledge in Matrix Algebra, Statement of Purpose, and Letters of Recommendation. GRE is not required.
